PROFESSIONAL SUMMARY

Full Stack Software Engineer with **3+ years of experience** building and maintaining **scalable, production-ready web and mobile applications** using the **MERN stack — React.js, Node.js, Express.js, and MongoDB** — along with **Next.js, TypeScript, PostgreSQL, and MySQL**. Experienced in developing **responsive frontends, scalable backend services, RESTful APIs, authentication and authorization, third-party integrations, and data-driven application workflows**. Proven experience **owning 6+ production applications** supporting **10,000+ active users**, optimizing **application performance**, troubleshooting **production issues**, and collaborating with **product, design, QA, and backend teams** throughout the **software development lifecycle**. Hands-on experience with **AWS, Docker, CI/CD pipeline, Redis, payment integrations, and AI-powered applications using Google Gemini LLM**.

PROFESSIONAL EXPERIENCE

Junior Software Developer, RedBlox.io

02/2024 – Present | Puducherry, India

- Owned development and maintenance of 6+ production web and mobile applications using React.js, Next.js, and React Native, supporting **10,000+ active users**.
- **Designed and developed reusable, scalable React component architecture** using TypeScript and Tailwind CSS, building maintainable and responsive user interfaces.
- Developed frontend features using **React Hooks, Context API, and Redux Toolkit** for component state and application-level state management.
- **Developed and maintained Node.js/Express.js backend services and REST APIs**, integrating frontend applications with databases and third-party services.
- Developed **full-stack features using the MERN stack** (MongoDB, Express.js, React.js, and Node.js), integrating frontend workflows with RESTful backend services and database operations.
- **Optimized frontend application performance and browser rendering** using lazy loading, code splitting, caching, and component-level optimization to improve efficiency and responsiveness.
- **Diagnosed and resolved production frontend issues through root-cause analysis**, debugging cross-browser and device-specific problems while maintaining application reliability.
- Implemented **responsive and accessibility-focused UI** using semantic HTML and reusable frontend components.
- Collaborated with product, design, QA, backend teams, and clients to deliver production-ready features and resolve issues.
- **Mentored 4+ Software Developer Interns** through technical guidance, debugging, task support, and code reviews.

Software Developer Intern, RedBlox.io

11/2023 – 02/2024 | Puducherry, India

- Developed responsive frontend modules and integrated REST APIs using **React.js, Express.js, and MySQL**.
- Contributed to feature development, debugging, testing, UI improvements, and API integration.
- **Converted to a full-time Junior Software Developer within 3 months** based on technical performance and project delivery.

KEY PROJECTS

AI Fashion, *AI-Driven Fashion Recommendation Platform*

React JS • TypeScript • Google Gemini LLM • Node JS • Express JS • Redux • Prisma ORM • MySQL

- Built **responsive React.js interfaces** for an AI-powered fashion recommendation platform.
- Designed a **Google Gemini LLM chatbot** to understand natural-language clothing requirements and recommend relevant products.
- Integrated chatbot interactions with **backend REST APIs and product data** to deliver dynamic recommendations.

Swypatune, *Social Music & Talent Platform*

React JS • React Native • Nest JS • MongoDB • Socket.IO • AWS • Razorpay

- Delivered web and mobile features for a social music platform serving **10,000+ users**.
- Built real-time workflows using **Socket.IO, Webpack, and REST APIs** to support interactive platform functionality.
- Integrated **Razorpay Payment Gateway**, implementing payment verification and transaction handling.

Wear App, *E-Commerce Platform*

Next JS • Node JS • Express JS • TypeScript • PostgreSQL • Prisma ORM

- Developed **4 core e-commerce workflows** covering product catalog, shopping cart, checkout, and order management.
- Built reusable React components and responsive layouts for product discovery and checkout experiences.
- Implemented **Next.js SSR, lazy loading, and code splitting** to improve SEO and frontend performance.

Ribatis, *Government Secure Communication Suite*

React JS • React Native • Matrix SDK • WebRTC • Redis • Docker

- Developed secure web and mobile communication interfaces using **React.js and React Native**.
- Implemented **messaging and audio/video communication** using Matrix SDK and WebRTC.
- Integrated REST APIs and WebRTC functionality while optimizing UI performance and user experience.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, SQL, Python

Frontend: React.js, Next.js, React Native, Redux Toolkit, Context API, Tailwind CSS, Material UI, HTML5, CSS3

Architecture: Component Architecture, Reusable Components, Custom Hooks, State Management, Microservices, Responsive UI Development

API & Data: RESTful APIs, REST API Integration, Asynchronous Data Handling, API Integration, Error Handling

UI & Accessibility: Responsive Design, Accessibility, Semantic HTML, Cross-Browser Compatibility, UI/UX

Performance: Lazy Loading, Code Splitting, Memoization, Caching, Next.js SSR, Browser Rendering Optimization

Backend & APIs: Node.js, Express.js, Prisma ORM, Mongoose, JWT, OAuth 2.0, Role-Based Access Control (RBAC)

Databases & Cache: MySQL, PostgreSQL, MongoDB, Redis

Real-Time: Socket.IO, WebSockets, WebRTC

Cloud & Tools: AWS, Vercel, Docker, GitHub Actions, Git, Linux, Postman, npm, Nginx, Webpack

Practices: Agile/Scrum, CI/CD, Code Reviews, Debugging, Root-Cause Analysis, Testing, Production Support

Payments: Razorpay Payment Gateway, Payment Verification, Transaction Handling, Third-Party API Integration

AI: Google Gemini LLM, Claude, Conversational AI, AI-powered Recommendations

Computer Science: Data Structures & Algorithms, Object-Oriented Programming, System Design, Problem Solving

EDUCATION

Raak Arts and Science College, *Bachelor of Science in Computer Science*

CGPA: 8.4 / 10

2020 – 2023
